TAILOR - MADE SOLUTIONS

*years | ans*

Three thin, white, wavy lines that sweep across the bottom of the page, adding a decorative touch to the design.

# EDITO

---

10 years ago, we decided to launch Aliénor so that our professional practices corresponded to our values. Today, we are proud to have managed to remain faithful to them, but also to have involved in this adventure talented people serving clients and sectors as diverse as they are exciting.

To celebrate our 10th anniversary, we will return throughout this year to the highlights of our history. This is an opportunity to pay tribute to our customers for their activities, which we are proud to represent in Brussels and to thank all those who have greatly contributed to the success of these actions!

Mélanie Lemaison
